JOIN THE FUN: Barefoot bowls is for everyone.

Barefoot bowls party time

THE barefoot bowls phenomenon has taken bowling clubs all over Australia by storm and it's not hard to see why.

Combine competition, a sparkling Aussie summer's day, beer served at affordable prices, music and a group of people, and you've created the perfect environment for fun.

Roll a ball down the green, have a drink, have a feed and have a laugh. Kingscliff Beach Bowls Club specialises in

Barefoot Bowls functions. "There's no better way to party than with a Barefoot Bowls Party" says Kingscliff Beach Bowls Club functions manager Helen Gardiner.

"We provide the bowls, catering and coaching. You don't have to do a thing; just turn up, play bowls, relax and have fun.

"Whether you're organising a relaxed Christmas party, a gathering with friends, a birthday bash, a hen's or buck's

party with a difference, or an opportunity to do a little bit of team building, we can tailor our Barefoot Bowls packages to suit you," Ms Gardiner said.

Kingscliff Beach Bowls Club also has wedding pre-functions where the guests all play barefoot bowls while they are waiting for the bride and groom to have photos taken.

For more information contact Helen on 02 6676 1404 or email functions@kbbc.com.au.

Tweed Growers know fresh is best

AT TWEED Growers their mindset is to bring back the good old-fashioned and personalised service of yesteryear.

Remember when store assistants used to greet you with a genuine smile, know who you are and ask you with interest how things were going and then happily offer to carry your shopping to the car regardless of the weather or how busy they were?

Tweed Growers does. Tweed Growers manager and farmer Grant Cook spoke about the aspirations for their busy little social hub down on Machinery Dr.

While most greengrocers are possibly battling midlife crisis or pushing the baby-boomer category, these guys are as fresh as their produce and

FRESH AND FRIENDLY: Jack Skelly from Tweed Growers, who now have their own app.

ready to take the next step.

While having that atmosphere and service that we all grew up with, they also have their finger on the pulse and an eye for the future.

Now keep the future in mind because on November 1 they became one of the first fruit and vegetable shops to have their

very own iPhone app.

From this app they can take the social hub from Machinery Dr and move it straight to your mobile phone.

Imagine doing all your fresh produce shopping on your phone at any time of the day, knowing all in-store promotions and specials, plus checking seasonal recipes.

CELEBRATE 125 YEARS OF THE DAILY NEWS

In October, the Daily News reaches its 125th anniversary. To mark the occasion, the Daily News is producing a 136 page commemorative special publication.

There will be hundreds of photos and over 350 stories which help to capture the transformation of the Tweed from its pioneering roots in 1888 to today's modern thriving community – and we look at some of the people who helped create this history.
